Please join us to help plan for the future of Norfolk Town Center!

The Town of Norfolk is working with the Metropolitan Area Planning Council (MAPC) to study the zoning and infrastructure of the Town Center to enhance opportunities for investment and development. The study will result in zoning recommendations, design guidelines, and other recommended actions to support and encourage a vibrant Town Center. As part of this process we would like to clearly understand the specific concerns, questions, and hopes you may have for Norfolk Town Center.

Please join us on April 11th at 7:00 pm at the Freeman Kennedy Elementary School Cafeteria to see initial results of a community survey (available for participation on the Town’s website) and to learn more about the study. Additional background and context for the project, including many of the Town’s recent planning documents, can be found on the Town’s website.
