Q6: Response Text “Yes, and offer where parking is most difficult”:

• Commuter rail! + Nick’s parking lot
• The strip mall (Nick’s)
• We have a spot at the old town hall; park there & walk to town center.
• MBTA lot
• Everywhere
• Train station
• Do not add more T parking next to Ivy music. If parking is an issue restrict lots to residents
• Only occasionally in the commuter lot - otherwise no
• I just park illegally
• Hard to park for the train
• When there is an event on town hill
• During town events like Santa parade
• Commuter rail parking
• Train and library depending on time of day especially during popular programs
• Commuter lot. Also, it is probably the reason the old Pharmacy and floral shops have been vacant for 20 years!
• To note, the commuter buses from other towns park literally in the road or just to side of the businesses in the center of town. There should be a designated area within the confines of MBTA parking for these vehicles.
• Library
• Later commuter rail trains
• Library; commuter rail
• During summer concerts
• I used to have a hard time in both lots for the 8 am train but I got into the lottery for free town parking so I no longer have that problem.
• Commuter parking lots

Q8: Response Text “Other (please specify)”: 

• It's potential. For new businesses and for more open spaces for the community to gather
• Common
• At the moment there aren’t many options to go downtown unfortunately besides to drop off drying cleaning, get coffee/gas or go to the library. It’s all very transactional
• Walgreens/Library
• None
• Library
• Visually pleasing
• The library and town hill are very nicely maintained.
• Quality of buildings
• Norfolk is poorly located and that has allowed it to be a quiet town until now. It will always be a poorly accessible town that will now be overdeveloped
• Love the colonial feeling and character of the buildings
• Potential for future development/redevelopment
• Needs more business
• Out of all these options most do not exist in Norfolk!!!
• *Potential streetscape, not current!
• Stony brook. Jane and Paul’s
• Safe and not too congested
• Town Common and buildings are very attractive
• Let's start with attracting businesses into town. Ice cream shop, restaurants
• Library
• It's a work in progress
• Easy parking
• LIBRARY
• Library, Dunkin Donuts and bank
• The green and the library
• I would prefer less alcohol signage at Norfolk food mart
• Coffee, Walgreen and the town green
• I think the look of the church and town hill adds a lot to the aesthetic appeal of the town's center.
• It has a lot of potential but is currently lacking in amenities and businesses
• Its' development potential
• Library and quintessential town square look with gazebo
• I do not think the center has any assets at this time
• Historic Small Town Character
• None
• Nothing
• Library and the town green and the beauty of it

Q9: Response Text “Other (please specify)”: 
• Town Hill and library is nice but awkwardly raised from the rest of the business adjacent to Train. No reason to stay for long other than library
• Lack of sidewalks on main roads to get there (North, Union etc.)
• Its own government and short time residents that change everything then move to let the rest pay for it
• Road quality
• A residential tax base. Little room to develop a commercial tax base. The town will become affordable only for those in affordable housing.
• Development restrictions
• The MBTA lot will be full all the time in about 1 year.
• And not being able to walk there
• Leaving it to the small town as it is, build on every square inch on the and over population from people not staying in the town for than 10yrs to help pay for the shit they vote in!
• The Town leaders are not open to building up the town center
• Restaurant variety
• We need more business options not parking lots
• Would love to see restaurants and more local businesses
• The center is too diffuse.
• There are very few desirable businesses- needs restaurants and retail
- Businesses, etc. are clustered in many “small” areas. The many areas ... the parts ... don't come together to make a cohesive whole.
- Empty space/retail locations.
- Restaurants
- Streets need paving
- Empty lots
- In general, the town is growing much too quickly.
- All of the above
- Need more businesses and restaurants
- Restaurants
- Residents resistant to development
- Quality grocery store!!!!!!!
- The buildings are not appealing. The group in with Town Pizza, over by Santander and especially the row of by the dry cleaner and Norfolk Mart (right by the railroad crossing) are in disparate need of a face lift. They look so dated and drab.
- Resisting Over Development and ending up like Franklin or Canton
- All above- except transit access. Traffic is horrible during rush hour between commuters rushing to park and commuters passing through Norfolk
- Library and Walgreens good. Everything around it is weak. Business adjacent to train are shabby.
- I want to check all of the above

• Restaurants and retail shops
• More to do
• Cohesion
• The Town center is missing things that would bring it to life. There are no decent places to eat and grab a drink. It is not a 'destination' for non-residents, as there isn’t much to attract others in. There are strange businesses taking up valuable space in the ugly buildings along Main Street, which takes away from the character that could be downtown. Other than the library, there aren’t places for kids to hang out, and getting to town center on bikes or walking is nearly impossible from most of the larger neighborhoods. If sidewalks connected to the center, you’d likely see more people there, as access becomes easier.
• A food store/ market
• Nothing
• Businesses like local stores, restaurants, bars etc.
• The Town Center is lacking quality businesses for residents and visitors.

• Restaurants
• Upscale non-chain restaurant
• Restaurant or neighborhood bar

• A restaurant! Better stores across from train.

• More parking and a food market. No resident should have to venture outside of town to food shop and we have to. With the amount of taxes we pay it is unacceptable
• Grocery store, restaurants. There so many towns around us that have cute centers that have variety of businesses.
• A grocery store, a good restaurant, family food choices like ice cream shops or bakeries. I know that Cilla's is there but it is not a place I'd ever take my kids and it is mediocre at best.

Q11: Response Text “What would make your visits to Norfolk Town Center more enjoyable and more frequent?”:

• More restaurants
• Restaurants
• More restaurants. Bars. Shops. Things to do
• Something besides bad pizza joint, and out dated convenience stores... Look at Medfield, Wellesley, Franklin, something to attract shoppers, people to gather and eat and drink and socialize, PLEASE!!
• Well-lit sidewalks with businesses to frequent (ice cream, restaurant, brewery, small shops) in the evening hours.

• A green park where the land is
• We should do a concert on the hill like Wrentham
• Stores, shops with fresh/gourmet takeout, restaurants, parks.
• Outside seating closer to the actual center. The central focus of the center is a gas station. That doesn’t draw people. The storefronts next to it are ugly and abandoned. Terrible!
• More shopping options
• To walk from my house on Main Street from Walpole line. Add sidewalks Dow this end to connect to center of town
• When something is going on
• Having more stores, a good bakery and coffee shop

• Restaurants
• More places!
• Ability to walk/bike safely to/from home with the kids. Not able to on Union or North (by Union) due to lack of sidewalks. Kids would love to be able to do this as well, as they are old enough, but it’s not safe enough unfortunately.
• More food options
• More shopping options
• Food market
• Restaurant.
• If there were shops or restaurants
• Restaurant
• If it offered more shops. Also, the way the rotary is, you take your life in your hands using it although I don’t want to see a set of lights go in there. Maybe more policing to control the madness there. When the trains come in, it is even more of a nightmare.
• Grocery Store
• Close Dunkin’ Donuts, free up a lot of traffic
• Restaurant
• Variety of stores that are walkable and make you want to stay there
• Better quality Business
• Better maintained sidewalks leading into the center. Also more safety for pedestrians. We need more of a feeling of a twin square—right now it feels like a busy intersection with mostly cars. That huge vacant lot is an eye sore.
• Grocery stores. More stores etc.
• More retail stores to shop in
• Restaurants
• More variety of restaurants and a grocery store
• Better shops
• More shops

• More variety of quality businesses and food choices.
• Good places to eat

• Better quality and variety of businesses
• Shopping/eating options, community events
• A Trader Joe's
• Sidewalks to get there. I live off of Cleveland, not safe for walking/biking

• Food, would love a grocery store, activities, less banks
• Larger Park/Green Space, Slower Traffic thru town, more modern businesses
• Hiking trails and nice coffee shop
• Grocery Store
• Restaurants and bars
• Less traffic
• There is not to attract singles or older residents (pre-retiree). Norfolk is strong only for school aged children and their families. The Grange could potentially work for a dinner theater. The old town hall should be developed as a community center for all ages. A community center could be a gym, a pool, etc.
• No big parking lots, keep it quaint maybe allowing for a restaurant or two or a healthy food mart with fresh produce every day
• Better retail, better coffee, restaurants.
• More local stores
• More businesses/shops, restaurants, grocery store.

• More variety of businesses, quainter feel
• A greater variety of businesses/restaurants.

• Less traffic and more shops
• If there was a restaurant or a grocery store
• More seating/picnic areas.
• Restaurants
• Food options
• Restaurants and retail variety
• More businesses
• More businesses
• No bike lanes
• Getting rid of the ridiculous roundabout I hate going to the center now at all costs something anything would have been better. The intersection by Needham Street is horrendous they need a light down there.
• Somewhere to go walk around, grab a bite to eat, etc.
• More stores
• Restaurants and dining or entertainment opportunities
• A local market would be extremely helpful to have. It doesn’t need to be a large grocery store but something like Brothers market would be wonderful.
• More town events, small unique shops
• A wider variety of businesses.
• Safe walking without fear of getting hit by a car.
• More shopping
• Something new
• Different types of shops.
• A sidewalk that runs the length of Needham Street that would allow me to walk and bike more safely to town would make my visits more enjoyable and frequent. Barring that, allowing for space for some dining options and a small grocery store would be great.
• Restaurants, local produce market, more shops
• If I could walk there on a sidewalk with my children
• Restaurants; healthy food market; cute stores
• More business. For example restaurants and ice cream shop or bar

• Sidewalks on Medway Street
• Same as question 10
• Something worth going to see and buy

• Good Restaurants and stores worth visiting
• Grocery store
• Sidewalk on Union Street.
• Restaurant with liquor license and outdoor seating
• Restaurants
• A grocery store... that’s the big thing I leave town for and a gym but I don’t think I’d like to see a grocery store in the center... too much
• Points of interest, not having to navigate the rotaries.
• See q 10
• A restaurant or a grocery store
• Restaurants, bars, more cultural events
• A grocery store! It doesn’t have to be a huge one. I nice, upscale market with good produce and meats. Something like Brothers.
• Update old buildings and add more of a variety of businesses
• I think the Town Center is very well done! My limitation is mainly working elsewhere 5 days a week.
• See #10

• Shops
• Sidewalks are not always in great shape.
• A restaurant to visit
• Less traffic

• A coffee place opened in the evening, cafe, restaurant, and bookshop
- A nice floral shop / boutique
- Grocery store, play space for kids, unique gift shop, quality meat and fish market
- Less traffic from out of town
- A reason to stay. The raised wall around the library is not conducive to walking and staying. The business and the buildings are embarrassing. Old brick, vacant, not appealing.
- More outdoor activities for all ages
- More small retail stores, restaurants
- More shops
- Restaurants and more general outdoor space for community gathering
- More to do
- Dining with seating outside. Better sidewalks to connect to the center. Better quality shops, for convenience and selection. Benches to sit on (besides at the Hill).
- If it offered more options for local restaurants so I don’t have to go out of town to Medfield or franklin.
- A high quality grocery store, better restaurants, food trucks and vendors.
- More variety
- Food store and/or restaurant
- Ice cream shop/Starbucks. Grocery store
- Sidewalks to/from center of town to neighborhoods
- A family restaurant and store with fresh produce, meat, etc.
- More sidewalks in Norfolk to get to the center and connect our parks and schools.
- Multiple quality restaurants/bars
- Grocery store and restaurants
- A comfortable Central Park area with access to food and coffee. Large enough for events or activities like a skating area in the winter like westerly Rhode Island. But undesignated use so that whoever wants to use it for activities can like the undesignated open space at the state school but on a smaller scale.
- See above
- More things to draw me there (other than Cillas and Walgreens)
- Shops and restaurants
- More dining options
- Having a restaurant or neighborhood bar
- Restaurants
- More variety. Only go for pharmacy and coffee.
- More options and reasons to visit more than just one business
- Businesses that are engaging, interesting, and more unique than another bank opening up in town.

Q12: Response Text “Other (please specify)“:

• A park

Q15: Response Text “Other (please specify)”:  
• New England quant town. Like Chatham Cape Cod
• Wide, walkable, well-lit sidewalks
• Parking lot screened with little walls is a terrible idea, nobody likes parking lots with too many curbs
• Good street and building signage
• We should make any future development to blend with the town hall and library. The set of strip stores need to be modified to be in line with the Town Hall and Library.
• Leaving the rustic way you found it
• Vintage looking streetlights, benches, and barrels.
• Require businesses to have up to date and well maintained signage and pride in the look of their businesses
• Historical accuracy, too modern design would just not fit the town
• The look of our town is lovely and keeping a similar aesthetic would add to the charm
• Note important
• No opinion
• The town should try to remain what it started as, an agricultural town. Slow and quaint. Since that really won’t be what happens, try to prevent it from being overcrowded. Try not to make it anymore inconvenient than it is with traffic jams starting in Norfolk instead of starting closer to the city. Don’t allow the state to plan the town, allow high taxpaying residents to plan their own town.
• Lights
• Traditional New England look and feel
• Anything Colonial New England.
• Historic colors
• Leave it the way you see it
• Replace hideous strip buildings
• No flat roofs and the strip that contains food mart needs a major face lift
• Encourage seating
• Don’t care
• Traditional New England style to give the town center a really cohesive look
• Places to sit outside
• The current trend in development is for a higher density living situation near commuter rail. There is a demographic shift among young professionals toward a shared economy and “car free” living currently urban areas have that draw. If we can imagine a center that would create the possibility of that sort of lifestyle it would be good.
• Don’t care
• Outside seating area.
• Mixed use. Retail with significant housing above.
• NOT the terrible 70s/80s strips where the Dry cleaners are! Awful
• Traditional storefronts rather than strip mall
• Not run-down
• Follow design elements of library, town hall and new building next to town hall
• Too many restrictions restricts development.
• Make it as green as possible with quality indoor and outdoor seating/ gathering.
• I love the look of the town hall and library. That area of downtown looks like it could be in Vermont. It's charming! Keep adding cupolas on the tops of buildings. It would keep the architectural consistent. Maybe look at downtowns like Manchester, VT and Woodstock, VT. They're charming towns that you might get ideas from seeing.
• Do away with or update run-down/empty buildings
• Doesn't matter.
• More restaurants
• Restaurants

Q16: Response Text “Other (please specify)”: 
• Brick and stone are classy and energy efficient
• Trees and natural planting
• Stone or brick would be a nice mix. We have many wooden buildings.
• Glass
• Note important
• No opinion
• Trees, grass, natural habit
• Old style look
• Not too much brick
• Energy Efficiency products
• No preference, just not brand new looking. Something with character.
• I don't know
• New England town center - Medfield is nice
• Don't care
• It is important to consider the application (for example, cobblestone crosswalks don’t hold up through New England winters) It's important that the materials chosen will have a good lifespan, and hold up to conditions they are exposed to.
• Doesn’t matter
• No preference
• I don’t feel qualified to answer
• Eco Friendly
• Too many restrictions restricts development.
• Energy efficient, sustainable materials
• Doesn't matter

Q17: Response Text “Please let us know any other thoughts or comments you have about Norfolk Town Center?”:
• Do something quintessential New England. Make the town functional, but beautifully quaint. It could be a gem instead if a dud. We have lived here 34 years, come on!!!
• I really hope Norfolk Town Center can be foster a small-town/village walkable, vibrant vibe. A place to do business during the day but then meet up with friends and have a beer or ice cream or listen to music in the evening.
• Can’t wait to hear the results and see downtown Norfolk expand! It’s a wonderful town that has a lot to offer
• Need sidewalks on Seekonk, Needham St and Boardman!
• Knock down the old store fronts. I have no idea what is going on in the buildings by Sovereign Bank
• Something should be done to update the current buildings. I.e. Borques and the block next to Daley’s
• I love to support local business but must leave town for food, clothing, and other regular purchases
• The center has come alive a bit with the addition of Walgreens and Cillas but we need more shops and places to eat. It doesn’t have to be overdeveloped but definitely needs more than it currently has. Take a look at Medfield center or Natick center or Dedham center. Just some cute shops (ice cream) anything that caters to kids as clearly this town is heavily
• Leave the center alone repair all roads so the tax paying public can enjoy their vehicle without damage caused by poor planning of the government as well as all tax payers town owned vehicles, not sure the government here thinks they need all this extra b/s, when the tax payers should decide where (our) the money is spent
• A local market like brothers market in Medfield could be nice.
• Too much liquor in "food" mart, too many empty stores, train parking lot too expensive and in bad repair
• The town would benefit from also having more exercise focused businesses and trails
• All streets within 1 mile of the town center and town parks should have sidewalks to make walking accessible and safe.
• Please keep the small town feel! I think Concord, Wellesley center, Newburyport, Rockport have done great jobs in maintaining the small town feel.
• I think the Norfolk town center is charming and has the most aesthetically pleasing infrastructure...but there is very little to bring me into town! I wish there was more to offer a young mom (stores, groceries, restaurant, ice cream for the kids). It is stunning to drive by but that’s it!
• I love Norfolk and I’m not that fussy!
• No housing, no fast food establishments, traffic builders.
• I hope the planners and boards will be more pro-business than they have been in the past. The building dept. has made it very difficult for business growth.
• Town Center seems to be split in different quadrants separated by very busy streets where traffic doesn’t always yield to crosswalks. I would love to see the town center modeled after Wrentham where everything feels centered around one safe green space.
• We need businesses.
• Norfolk should have been planning for this. The state is in control of our town’s plans more than we are.
• The center is not walkable and the businesses are too spread out. There should be more effort in attracting businesses to the empty buildings. Perhaps a tax incentive.
• We love the town green and the quintessential 'New England feel' of our town center. We particularly love when it is decorated (flags, holiday lights, etc.)
• More parking for library, events on hill such as concerts, parades
• The cobblestone crosswalks are a complete waste of taxpayer money. The freeze and frost cycle along with the use of road salt makes this style impractical for use in a frequently traveled roadway. The new police station should never have been moved the
furthest outreaches of town. Demolish and replace the building that Norfolk Food Mart and cleaners is in. That building is an eyesore.

- Better food sources, stores, yoga studio
- We need natural gas to attract restaurants.
- Norfolk Town Center has come a long way in the 30 years since I moved here but I hate seeing vacant store fronts. It's important to attract more business to town. That was the plan 30 years ago and in that amount of time Walgreens, Cillas and Dunkin Donuts are the only new business to come to the center and stay!
- The town makes it very difficult for businesses to operate in their town
- Responsible development should be encouraged thru creative zoning, infrastructure and tax incentives
- More shops and update the old brick buildings
- The town is a total disgrace, roads are horrible at best, debris along road ways (tar from potholes, wood from fallen trees during storms, damaged from town hired plow contractors etc.) town workers not preforming daily work with results etc.
- Nice Restaurants / bars / good takeout / less banks / ice cream shops. More places like 3 or gavel, less horse n carriage or eaglebrook.
- Something needs to be done with the vacant land across from Walgreens.
- The cobblestones get wrecked and redone after every winter- waste of money to keep fixing. Look at doing stamped pavement instead if the look is that important!
- I love the town center, growing up in Norfolk, it was always a great place to go. Would love for some sort of interactive thing to be added in front of Walgreens in the land that is not occupied - although not town owned, maybe we could look into purchasing it
- Restaurants, small market
- Please make it easier for a restaurant to open in the town center. I have dreamed for 10 years of walking to dinner or to meet friends for a drink. Outside dining would be amazing.
- Grocery with fresh produce!!
- Need more businesses to help out on taxes.
- We need more retail shops and maybe a restaurant but on this side of town irritates me all the stuff to in our town is on for kicks side. I still prefer to go out of town to do things. Norfolk used to be fun. How about spending some money on the town pond...
- Disappointed in all the empty stores
- Thank you for asking for input from the residents of the town.
- Existing buildings need a facelift, restaurants, shops and produce market would be wonderful
- I'm excited to see future changes - more restaurants and retail
- Overall it is a great town center and people from outside the area comment how nice it looks
- Less housing, more business
- Would be nice if the left side of town with rundown buildings, matched the newer/updated side, town hall, library, Walgreens! Thanks for all your efforts!
- Please define Town Center?
- Better traffic plans needed because of the backups during rush hour at the round a bouts
- Don’t do the parking lot on chip and property
• Please do anything with that big open space across from Walgreens.
• More use of all that dead space in town
• Begging for a grocery store and a couple of good sit-down restaurants. Keep the small town New England feel. It’s a close knit community and we all have vested interest and pay A LOT of TAXES!
• Boring
• To make the town center more accessible by walking, please extend sidewalk further down Main Street (towards Franklin)
• We need the town to look better with a little upscale decor!
• Please don’t overbuild the town center! I love the current architecture and look of the center and hope it continues to have the quiet, small town feel it has now :)
• Old, tired, dull, vacant, embarrassing. Beat up sidewalks and roads, dirty, dusty. Vacant lots and store fronts. Awkward traffic patterns. Needs a complete redo and innovative thinking.
• It has a lot of potential to be more of a destination but the businesses that are there now, besides Cillas, are lacking any real life or community ties.
• Please consider eliminating cobblestone crosswalks
• For the commuter parking I don’t have trouble because I live close enough to walk. My family enjoys walking to town center to take advantage of the library, the farmers market, Cilla’s and Walgreens. We would love to have more local places to walk to and enjoy!
• The old buildings that reside along Main Street are a real eye-sore, and take from the character of the Town. It would be nice to see all of the buildings in the center have uniformity, similar to towns like Islington/Westwood and some of the newer portions of Millis. The Norfolkmart building is unsightly, and could use an update, converting the building to Mixed-Use. It would be great to see a walk through path, cutting like a covered alleyway, connecting to a crosswalk for the commuters. The Bourque’s and O’Loughlin building remain as businesses, but update the buildings to match the look of the new credit union building, and keeping the uniformity. A larger mixed-use building would be nice in the vacant land across from Walgreens, and bring in unique shops/businesses/food, which would draw more people into the center. It’s obvious that the center needs some work, and hopefully over time, it becomes a more desirable place to visit.
• Too much congestion already; more people and businesses means more trash and litter, and more that will go without being picked up. Fix potholes. Taxes too high. Too many people and schools are too crowded, decreasing quality of education.
• The Norfolk Town Center presents an incredible opportunity to increase local business by offering what customers want while keeping traditions in place. Failure to allow or create these opportunities leads to residents taking their business to other towns.
• Love Norfolk! The only thing that would make it better is having that property that is currently "For Lease" near the train actually being put to good use!
• A grocery store (Trader Joes or whole foods) would add value to our town....NOT a stop n shop or BIG Y...style.
• I love the rotaries, please don’t ever change to stoplights
• Options for low income housing should be incorporated to reduce the amount of construction elsewhere that is taking away from our “towny” feeling.
• It is disappointing that the new building in the center is a credit union. So many people do online banking now, why use precious town center space for that? Also, the brick buildings currently in the center (like where Nick’s Pizza and the dry cleaner are) are so dated and depressing looking! They should be torn down and modernized. Finally it would be so nice not to have to go to another town to grocery shop, and to have a restaurant or 2 near the center to grab a drink and a bite to eat. Thank you for the opportunity to provide feedback!

• While there is technically a spa in the town center, it doesn't appear to be open the majority of the time. It's a shame that a retail space is being wasted on a service provider that isn't committed to its local customers.

• Traffic issues will need to be addressed, but I believe the dense development we are undergoing should be concentrated near public transportation, not scattered around town on rural roads, necessitating multiple cars for each household.

• Extend sidewalks further outside of town, and keep clear with snow removal, including coming back out after plowing to ensure entry to sidewalk is not blocked

• We may need to consider a small parking garage behind DD and the strip mall with cleaners. This would assist Norfolk residents taking commuter rail and allow parking so someone would rent that empty space next to Daley’s.

• Norfolk could be really special with some more improvements. Please do not put in a big grocery store, but smaller helpful but quaint stores.

• With the proximity of the train, the need for parking, restaurants, and retail significant housing should be added to attract business investment and expanded parking. Walpole is building several large housing structures near the train station and in Norfolk this could take care of our affordable housing quota thereby saving other neighborhoods while bringing enough new people to downtown to justify growth of retail restaurants and a grocery store.

• The area around the town hall looks fine. Would be nice to have something in the big open area. All the buildings on the train side of the center feel empty and not maintained. Need some restaurants and investment from the building owners. Currently looks like 1970 in some places.

• In terms of a town layout, Norfolk is a wonderful shape. We just need to fill all each corner with pride and interest. Let the lovely library, town hall and green be the model for the town. An elegant, traditional town with a modern pulse.

• Road repairs need to be prioritized

• Businesses that cater to young families, millennials and commuters should be encouraged. Brothers Marketplace, Starbucks, McDonalds, pub, Garden Center, consignment shop, etc. would cater to all.

• It feels like more can be added to the town center. We don’t need pizza or coffee.

• I answered no to the commuter rail question, but want to clarify that I use the commuter rail 3 times a week but I drive to a Sharon because the schedule is more convenient, less stops, etc.

• It looks like moonscape. Terrible

• Why do we have all the space in town that's not rented out just empty space?

• the biggest need is some sort of grocery option, could be a meat market and a separate place with fruits/vegies, or all in one

• The first thing the town should do is get SIDEWALKS - more people would walk/ride bikes and lessen traffic during peak hours which is only going to get worse with all the new
construction. All builders who do low income housing in their projects should be required to
do 20% of their housing dedicated to low income so we can finally meet our quota.

- Don’t micro-manage.
- Love town center. Need more food options!
- Thanks to all who are working to gather ideas and turn them into realities! It a great town
now, with an opportunity to grow and retain its character.
- More Garden Club plantings, perennials
- It’s hard not to notice the development of other town centers along the commuter rail. We
need to step it up.
- Thanks for allowing residents to give feedback on the town Center. Norfolk is a wonderful
town. We’ve lived here 11 years. We loved from Dedham. The center has improved a lot
since we first arrived in 2008. But it still doesn’t reflect how great a town we are. My
number one wish is to update (or give a facelift) to the rows of shops along Main Street
and Rockwood. It’s kind of sad when the gas station (Daley’s) and Dunkin Donuts have
nicer architecture than shops. I am Very excited to follow the progress of this development
and to attend town meetings. Thank you so much for your hard work!
- Eminent domain the Stop and Shop land and start over. Or Rezone that unused area and
Jack up the Tax on it.
- Special little town. Grateful for this community!
- Maintain small town feel. Make it an authentic representation of the town’s history and
values. Avoid duplicating generic town center that lacks local personality
- Still love our little sleepy town the way it is. A few additions would be nice and it’s
exciting to think about the future but would never want to lose its rural charm and end up
with traffic issues like Franklin and Medfield.
- I’ve been waiting for meaningful development for 20 years. Hopefully something happens
before I sell my house!
- Would love more to do there!
- Do NOT overdevelop Norfolk Center. Keep the Small Town Charm.
- We need more businesses, restaurants, shops to keep commerce in Norfolk instead of
having people pass through our town and residence of Norfolk halving to travel to
surrounding towns to shop/seek entertainment/restaurants
- I would really like to see more retail options, particularly a grocery store...the closest
grocery store is at least 12 minutes away
- Please add Restaurants & Bars
- Needs modernization to drive investment
- Because we have developed slowly, planning has been more thoughtful. Continue to
proceed slowly please. Quality over size and quantity. Plenty of other places to shop.
- Really would love a sidewalk put in on Union St.
- There is no "flow" to the town center today. A gas station, 2 tiny strip malls, where it is
difficult to walk from one to another, Town Hall and the Library across from those places.
There is nothing to encourage a "stroll" and the roundabouts, with driver’s lack of
understanding how to use them, make pedestrian traffic dangerous!
