

OUTSIDE WATER USE RESTRICTION - Effective June 15, 2009

At their meeting on Monday, June 8, 2009 the Board of Selectmen voted to invoke Article VII: Land Use and Resource Protection; Section 3: Water Use Restriction Bylaw;

- **Only Hand Held Hose Water Use is allowed until Further Notice**
- **NO Automatic Sprinkler Use**
- **NO Filling Swimming Pools**

All Norfolk water customers should immediately comply with this Mandatory Water Use Restrictions.

Restrictions are necessary due to a reduction in the withdrawal ability of the Spruce Road Well. Our pumping stations have been operating 24/7 to adequately meet the current demand.

Our priority is to maintain adequate tank levels and system pressure to assure public health and fire protection.

Thank you for your patience
